Become a Doctor For The Cure®

It's easy to become a Doctor For The Cure®. Simply fill out the attached application form and send your donation by August 24, 2007. We will then send you specially marked applications for you to forward to your patients who are breast cancer survivors. It will be the responsibility of each patient to fill in the application and send it directly to us. We will also supply a sample cover letter for you to enclose with the Race applications. This letter will explain to your patients that they are invited to participate in the 11th Annual Komen Central Florida Race For The Cure® free of charge. We encourage you to personalize the letter for your individual patients.

Due to strict confidentiality practices, your office will need to identify survivor patients and send the application and cover letter to each patient. If you don't keep lists of breast cancer survivor patients, those names may often be obtained from hospital radiology records. Once you send the initial letter, we'll take care of the rest of the registration process.
